The work of the school nurse, Miss Margaret Macdonald, last year included the regular examinations and home visits, audiometer hearing tests, a dental clinic at which 15 pupils were treated by Dr. Manning, and attendance at the mental hygiene clinic. Miss Macdonald resigned at the end of the school year to accept another position, and was succeeded by Miss Myrtle Fletcher.

Last spring the district provided for a special committee, composed of the School Board and Superintendent, Selectmen, and three others, to investigate, improved school facilities. This committee will doubtless give a report of progress at the regular school meeting.

This month (January 12) marks the 200th anniversary of the birth of Johann Heinrich Pestalozzi, Swiss
educational pioneer. Instead of the previous methods of education for the few, consisting in the memorizing of printed words without regard for their meaning, beaten in by continual floggings, this great man exemplified education for the common people, inculcated by kindness, and including such humanities as music, drawing, history, geography, and nature study, as well as improved methods in the three R's, taught by trained teachers. In a deserted convent, he gathered and cared for a group of refugee children, waifs such as roam in Europe today. His genius is largely responsible for schools that are interesting and friendly, to which children are eager and willing to go.

CHESTER W. DOE,
Superintendent of Schools.

January 16, 1946.

To the Voters of the Town of Lee, N. H.:

We submit the following report of the activities of the Building Committee elected at the School Meeting in March, 1945.

The Committee is composed of the members of the Board of Selectmen, the members of the Board of Education, and three parents appointed by the Select-
men—Mrs. Euna Keniston, Mr. Oscar Gooch and Mr. Clifford Hale, with the Supt. of Schools, Mr. Chester W. Doe.

This committee met with Mr. Paul Farnum of Concord, of the State Planning Board, who acquainted them with the necessary State requirements which must be met in building a new school building, or in remodeling the existing buildings. Mr. Farnum also arranged a trip to various buildings in the State which were meeting the needs of a situation similar to our own, in Lee.

In July, your Committee visited schools in the towns of Concord, Bristol, Hill, Dunbarton, Auburn and Candia.

Your committee interviewed two architects, and was impressed with the ability of Mr. Goodspeed of Goodspeed and Perreton, to understand our local needs and situation. Mr. Perreton of that firm has presented several plans in an effort to approximate the price range the committee felt the townspeople would approve.

There has been considerable discussion about the advisability of using the buildings we already have. We have been advised that altho' the buildings are in fair condition, the expense of moving, combined with the necessary changes to incorporate the two into one unit, would make that project prohibitive.

In view of the findings of the Committee, they make the following recommendation:

That the Town of Lee build a new central two-room school, provided that:

1. The total cost of the project does not exceed $15,000.

2. The expense to the town does not exceed $8500, balance to be paid by federal grant.
3. The town make a grant of land adjacent to the church property, of five acres, for site of the proposed building.

Respectfully submitted,

ESTHER B. COOMBS,
Secretary.
